

Fun English Kids

Overview

Plus Fun English for Kids is a programme specifically aimed at international groups of primary age children, to think critically and to develop the language skills they need to find their own voice in English. The carefully-guided language lessons, real-world stories, and National Geographic videos motivate learners to think creatively and communicate effectively in a globalised world.

Materials

Our carefully chosen course materials (National Geographic's *Our World*) help learners develop an open mind, a critical eye and a clear voice in English.

- **Easy, Safe and Child Friendly Technology**
- *Our World's* technological resources reinforce and enhance the content of the learning materials, and make learning much more fun! My NGConnect platform provides access to games, interactive activities and virtually connects the teacher and learner outside class time.

Created especially for young learners of English, the ***Explore Our World Video Program*** is the perfect way to bring your English language-learning classroom to life. It's fully integrated into all the teaching and learning materials, and includes **15 to 20 fun-filled minutes of video for each unit.**

Skills you will develop during the course

By focusing on listening, speaking, and pronunciation, *Explore Our World* provides young learners of English with the key language, skills and knowledge needed to understand their world – while having fun, of course!

Why choose Plus?

National Geographic Learning materials

[Our World](#) is a place to hear inspirational personal stories and discussions carefully chosen for primary age children. In addition, you will get:

Live online classes with expert teachers who would help your child find their voice

- live online classes with a young learners specialist, highly-trained teacher

Small classes mean your child will get the best out of learning English online

- students are guaranteed attention and personal support from their expert teacher

Develop life skills for a global world from your own home

- the online environment we provide is safe for children and easily accessed

Stay connected and continue learning between live classes

- To help your child get the most out of each live class, their teacher will set you interactive independent study –such as games, videos to watch and interactive reading tasks- all in an easy to use digital learning environment.

Learning Objectives

- explore the skills required to be ready for an international academic environment such as problem solving, creativity, critical thinking, analysing data, personal expression, synthesizing information
- expand on your general knowledge and develop awareness of current global issues (such as dealing with disasters, intercultural communication, the United Nations)
- learn about new amazing facts and topics that will keep you on your toes

During the live classes, you will:

- have lots of time to speak English and practice pronunciation with your teacher and fellow classmates
- develop your communication skills by working on projects in pairs and small teams

- Build up to a final project at the end of each module that has a real-life outcome, such as a presentation, 3D project, video recording, etc
- Practise the skills you need for success in school exams and in conversation with other children when travelling or studying abroad
- Experience more of the real world with content that motivates learners to use English, including surprising photography, meaningful stories and readings, immersive video and incredible National Geographic Explorers.
- Learn more about the world through cross-curricular topics that challenge learners and deepen their understanding of the world in English.
- Help learners achieve more through collaborative projects, extensive critical thinking and visual literacy work, and activities that inspire meaningful thinking and sharing.
- Our World truly brings the world to the classroom and improves learning outcomes, motivating learners to use English to show the world what they can do – and achieve more.

How will children learn with Our World at Plus?

In each *Our World* Student's Book young learners are exposed to:

- Language presentations and practice
- Songs and games
- Video activities
- A focus on global values
- National Geographic Values and Mission pages
- Collaborative project work and much, much more!

To help teachers create an exciting environment for your child, and develop key communication skills, the **Explore Our World Video Program** includes:

- Original songs
- Language presentation and practice
- Games
- Inspiring, real-world video
- and *Our World* Reader Story Time segments.

Our Online English course will help your child develop into an assertive, independent, global citizen.
