

IELTS & ACADEMIC ENGLISH

IRELAND – 2019

30 hours of intensive training over two weeks

This course has been developed to guide students through key stages of the internationally recognised Cambridge IELTS exam.

The IELTS exam is accepted as for proof of proficiency in the English Language for entrance to English speaking Universities around the world.

The course covers all aspects of the exam while also developing students' ability to understand and use Academic English across all four skills: reading, writing, speaking and listening.

The learning outcomes for this course are specifically designed to help students

- Understand the exam structure
- Learn essential exam strategies and techniques needed to achieve their desired score
- Write different academic essay types
- Evaluate and self-correct their speaking
- Be prepared for the mechanics of the IELTS examination (time, order, format)
- Focus on target material in academic reading passages
- Interpret and describe statistical data using appropriate language and grammar
- Demonstrate enhanced vocabulary in writing and speaking
- Formulate, express and defend opinions using appropriate vocabulary
- Demonstrate improved listening skills for comprehension and details

Our experienced teachers use authentic materials and official IELTS practice exam papers in engaging and focused lessons to give students the best opportunity to improve during their time on the course.

The course also concentrates on the production of high-level academic language in both spoken and written forms and this may be useful for students who want to develop these areas but are not thinking of taking the exam.
