

Academy Sessions

Golf

About Our Golf Academy Sessions

Our programme is aimed at players who are looking to develop their golfing ability through learning technical skills to allow players to confidently venture out onto the golf course. These sessions are focused on improvement through both learning drills and playing games. The sessions are always delivered in a fun and enjoyable way.

The programme is run by professional, PGA accredited coaches who are committed to creating a positive team environment. Our sessions follow a development plan covering both the fundamentals and more technical aspects of the game - and will teach students how to apply these skills on the course. The development plan is structured in such a way that students always have clear tasks and objectives to be completed before moving on to the next stage. At the end of the development programme students will be confident enough to tackle even the most challenging courses.

Classic/Premium Plus Academy

The Academy package also includes full board onsite or host family accommodation, expert tuition and at least 2 full days excursion per week. Also included are a full and varied onsite social and sports activities programme during the day as well as an action-packed evening social program all fully organized and supervised by our energetic PLUS staff.
